New Isuzu Truck Range Showcased At Brisbane Truck Show

In front of a record-breaking crowd of just under 55,000 road transport stakeholders at this year's Brisbane Truck Show, Isuzu Australia officially unveiled its most comprehensive new model launch in the history of the brand.

Visitors had the opportunity to see and touch the first new Isuzu models since 2008, underpinned by a raft of elements that continue to evolve Isuzu's reputation for innovation, safety and efficiency.

The four-day event - Australia's largest industry exhibition and biggest truck show in the Southern Hemisphere - drew 54,790 attendees with many descending on the Isuzu stand, which sported a bold new design that catered directly to the customer experience.

A bold statement

Isuzu Australia Limited (IAL) Director and Chief of Sales & Aftersales, Ben Lasry, said the excitement around the new model line-up was matched by a showcase that not only drew the masses but ensured customers were left in little doubt about Isuzu's market-leading position.

"Isuzu delivered an experience that has really set a new standard for the heavy vehicle industry.

"I've been involved in the Australian automotive space for nearly three decades and to be honest, I've never seen a more comprehensive and sophisticated product showcase," said Mr Lasry.

"It must be remembered that this was not just a single new model reveal; variants representing every model across the light, medium and heavy-duty segments were formally introduced to the public in Brisbane. To my knowledge, this has never been done before and what better way to unveil a new line-up than that at the biggest industry event on the calendar."

All-in

Beyond the truck themselves, Isuzu's 'all-in' showcase gave a nod to the entire brand offering, from aftersales, parts and accessories, through to merchandise, partnerships and future innovations.

"Visitors to the Isuzu stand had the opportunity to move around freely, without feeling too crowded or overwhelmed, all the while gaining firsthand experience of 11 vehicles, nine of which were brand new," Mr Lasry added.

"While the trucks themselves were the stars of the show, punters also had an opportunity to engage with a range of interactive experiences that were unmatched by any brand at the show."

Product experts took to the stage to outline the features of the MY25 models

Isuzu kicked-off its Truck Giveaway with a \$100,000 prize on offer

Dynamic & engaging

In 2025, Isuzu upped the ante with a range of new elements, allowing customers to speak directly with Isuzu experts, including dealer representatives and engineers sharing their knowledge of the new models.

John Walker, Head of Marketing & Customer Experience, backed Mr Lasry's sentiment, providing an insight into the level of planning and expertise that goes into an event like the Brisbane Truck Show.

"It wasn't just the trucks that were new, nothing carried over from our previous showcase in 2023, with the planning and ultimate execution coming after two solid years of work," said Mr Walker.

"We set out to not only launch a new model range in Brisbane, but to really set the standard for the industry as truck market leaders. We feel we've achieved that in spades.

"Despite the lead-up, in many ways the Brisbane Truck Show is just the beginning when it comes to this new model range," he said.

"We now move into a staged roll-out phase, with start of sales for the heavy-duty FX and light-duty NQR models starting in June."

\$100,000 truck giveaway announced

If the new model Isuzu launch wasn't exciting enough already, Isuzu also announced at Brisbane Truck Show the commencement of a major \$100,000 customer giveaway.

The winning prize puts one lucky person behind the wheel of the all-new 2025 Isuzu NLR 45-150 Traypack that comes with a genuine accessory pack, merchandise pack, and a three-year Total Service Agreement, plus the ultimate V8 Supercars VIP Experience in Adelaide for the winner and three of their mates.

The competition is now open for entries until 24 October 2025.

The Isuzu stand was the place to be at the Brisbane Truck Show

Go time!

As the dust settles on a landmark full-model changeover for Isuzu in Australia, Mr Lasry indicated there'd be little downtime for the Isuzu team.

"We've had a huge amount of enquiries both before the show and during the event in Brisbane as well, so there's no rest for the wicked as they say.

"We're continuing to roll-out a massive training program across our networks and we have a range of activities and events planned to ensure customers have every opportunity to come to grips with this amazing new truck range.

We're excited, our dealers are ready and raring... it's 'go time,' and we can't wait to see these awesome trucks out on the road. ”

ISUZU

Merchandise

[NEW RANGE]

Isuzu's all new merchandise collection is crafted specifically for dedicated Isuzu Truck customers and is categorised into three distinct segments: Core, Launch, and Heritage. The Core segment features versatile everyday items branded with Isuzu Trucks, appropriate for various seasons and purposes. The Heritage collection pays homage to Isuzu's extensive history by offering nostalgic products adorned with iconic emblems that represent its legacy since 1916. The Launch range celebrates the release of the new truck, showcasing innovative designs and exciting new features. Each segment addresses specific customer needs, reinforcing the Isuzu brand, celebrating technological advancements, and connecting with long-standing supporters of Isuzu.

ISUZU SERVICE AGREEMENTS

Zero-stress servicing. Brought to you by Isuzu.

No business wants big, unexpected bills. But with an Isuzu service agreement, you can flatten your truck servicing costs into a predictable monthly payment (or upfront fee with Isuzu Essentials). You'll also be part of one of Australia's biggest dealer networks, so you can book a service at locations around the country. With the new Chain of Responsibility laws, proper servicing will protect your business. Lastly, service agreements come with Isuzu Care, Australia's most comprehensive truck customer care programme. To find out more, see your nearest dealer or visit isuzu.com.au/care-support/service-agreements.

Ask your local Isuzu dealer about which service agreement is right for you.

Isuzu Essentials

Isuzu Essentials Plus

Isuzu Total

Isuzu Heritage

DEALER NETWORK

Isuzu has Australia's biggest dealer network. If you book into any Isuzu Service Centre nationwide, they'll have access to your truck's comprehensive service history.

ISUZU CARE

Australia's most comprehensive truck customer care programme, Isuzu Care has a team of service specialists to ensure that owning your Isuzu is a great experience. To contact them, just freecall 1800 035 640.

STREAMLINED PROCESS

Maintaining your trucks under a Priority Service Agreement is quick and easy. With prearranged payments, you won't have to worry about the hassle of arranging finances before your drivers drop off and pick up trucks on the day of the service.

CHAIN OF RESPONSIBILITY & NHVR

With a Priority Service Agreement, you're clearly demonstrating that you've pre-planned your fleet maintenance and have put established procedures in place. That means establishing NHVR (National Heavy Vehicle Regulator) fleet maintenance requirements couldn't be easier.

ONLY THE BEST SERVICE AND PARTS

Using a combination of the latest diagnostic software and Isuzu-approved parts, our qualified Isuzu technicians will keep your truck in tip-top condition.

REDUCE TOTAL COST OF OWNERSHIP

Better servicing helps reduce unforeseen overheads and results in more reliable, fuel-efficient trucks. And that means less downtime and lower total cost of ownership.

FACTORY TRAINED TECHNICIANS

Why would you trust your Isuzu to anyone but an Isuzu-trained technician? With meticulous training tailored specifically to Isuzu trucks, our team carries out servicing and repairs to manufacturer-documented standards (and that means the highest level possible!).

RESALE VALUE

Thanks to the comprehensive service history you receive from Isuzu, you'll always get the best price for your truck when the time comes for an upgrade.

Ultima MK3 LED Driving Lights

NARVA®

THE VISION TO GO FURTHER

Up to 20% brighter. 100% more control.

The Ultima MK3 range boasts up to 20% more output, while seamless integration with the Ultima Connect+ Controller means you can fine-tune your light intensity and beam shape with precision for optimal visibility in every driving scenario.

Engineered for control

The innovative Ultima Connect+ Controller (sold separately) allows you to take full command by tailoring the light intensity and beam shape of your Ultima MK3s to suit any driving conditions. Whether you need added distance, spread, or even a power boost, you can easily preset and adjust your settings for maximum visibility.

Ultima 215 MK3 hybrid beam options

Ultima 215 MK3 spot beam options

Engineered for performance

Ultima MK3s broad, penetrating 5700°K white light offers superior visibility without dark or hot spots. Outputting 20% more effective lumen figures than the previous MK2 model, once connected to an Ultima Connect+ Controller they'll deliver an additional 10% on top of that in boost mode.

Engineered for you

Crafted with Narva's signature style, Ultima MK3s match the latest Ultima light bar range and allow you to customise their look to suit your vehicle.

Select between satin or black bezels, 7 interchangeable trim colours and clear, dark tint, or 'Selective Yellow' protectors to enhance performance and aesthetics.

Engineered for durability

Ultima MK3 driving lights are built to endure the harshest environments with robust construction in the form of a single piece pressure die-cast housing, and virtually unbreakable UV-resistant hard-coated polycarbonate lenses and lens protectors.

Ultima MK3 driving lights come with a pre-selection of customisation accessories in the box and additional accessories are available for free via redemption.

STAND OUT WITH ANTARES

POWERFUL PERFORMANCE, PERFECT FIT
TAKE CONTROL OF YOUR LIGHTING TODAY

ANTARES 7-INCH

The Antares 7-inch driving lights deliver outstanding visibility wherever the road takes you. Enjoy versatile lighting that's built for both adventure and everyday driving—without compromising on clarity or style.

HIGH OUTPUT MODE

DAYTIME RUNNING LIGHT

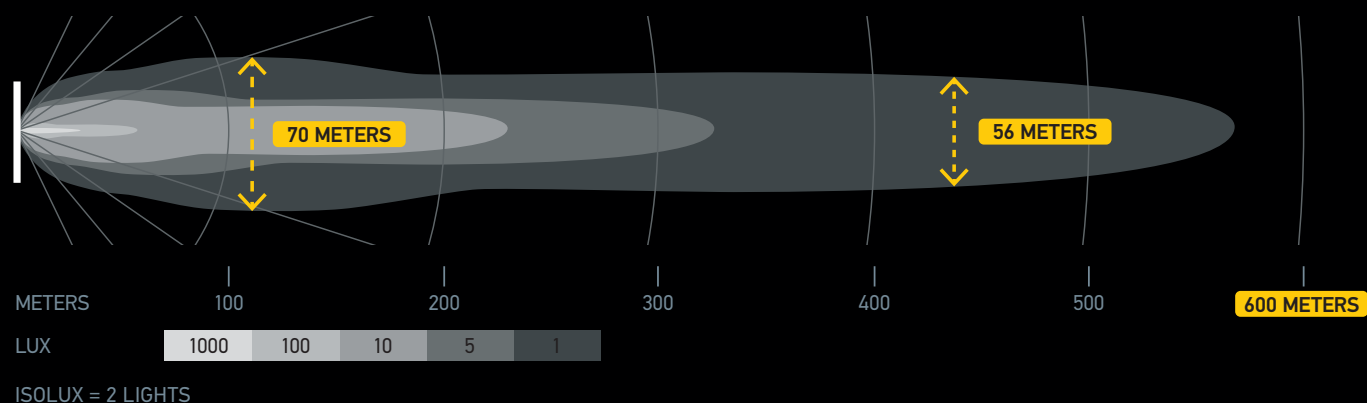

POSITION LIGHT

Ideal for smaller vehicles or tighter mounting spaces without sacrificing performance, the Antares 7 inch provides significant light output:

- 70m wide beam exceeds 110m distance, thanks to ultra-wide specific LED clusters
- Mid-range width of 56m that exceeds 400m distance with the umbrella LED optic
- Precision Projector LED gives a total distance exceeding 570m
- All at the industry standard of 1 lux

Isuzu NextGen Plus 10W-40 CK-4 E8/E11 Engine Oil

Premium Engine Oil that adheres to the latest E8/E11 ACEA specification and approval process. Using a carefully chosen base stock formulation and premium additives that meet the demands of Euro 5 & 6 engine requirements, it has been engineered to reduce oxidation and assist with piston cleanliness, decreasing soot and carbon build-up. Recommended for use in Isuzu Trucks and has wider appeal across a range of other commercial vehicles including those with Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC) systems and Diesel Particulate Filter (DPF) exhaust after-treatment systems, making it a staple for any automotive workshop.

Unreal Engines In Fire & Rescue

Australia is a place of diverse landscapes, home to a multitude of climates and environments, from sweeping red deserts, dense bush and lush rainforests to powerful surf breaking against the shorelines.

Where the beauty of the country is equally matched by the complexity and volatility of its weather events—particularly in summer—providing emergency services across the land comes hand in hand with some huge challenges.

Emergency services work hard all year round to prepare for the dry season so that when the time comes, they are ready to move into action with reliable equipment at a moment's notice.

High water: Marine Rescue Port Stephens NSW

Marine Rescue Port Stephens NSW is a volunteer organisation that plays a key role in community safety, on and off the water.

The branch has two rescue vessels, a fast 12-metre Flybridge Steber used out in the ocean and a smaller 10.5-metre boat for the bay area and surrounding rivers and lakes. All activities are coordinated from a Radio Communications Centre based at the stunning Nelson Head Lighthouse Reserve heritage site.

With the local community relying on Marine Rescue Port Stephens, they require backup power that can be accessed at a moment's notice.

When a recent electrical storm destroyed a huge amount of equipment at the centre, they sourced a new 20 kVA generator set to provide power for their various operations.

Operations Manager Mick Duggan said the generator is essential for keeping the power on for the Radio Communications Centre and training building and a key source of income for the volunteer-run operation in their cafe and restaurant.

Reliability, no matter what

There are many uses for engines in emergency services, from essential backup power generation to being the driving force behind water pumps used to fight some of our worst bushfires. The critical element is that they don't fail when they're needed most.

To stay updated with power solutions and engine options available for your business, chat with your Original Equipment Manufacturer or local power solutions expert for more information.

ISUZU

Genuine Batteries

The Isuzu Battery Difference

Isuzu's range of sealed maintenance free batteries are designed and manufactured to the highest quality standards, ensuring exceptional performance and reliability.

1 ROTARY PLATES

- Specialist advanced plate design provides longer service life and resistance to corrosion and material shedding.
- Lower internal resistance promoting higher CCA and improved vibration resistance.

2 ENHANCED PLATE PASTE

- Reduces water loss and improves charge acceptance for superior performance and cycle life.

3 SEPARATORS

- High Porosity Polyethylene Envelope (PE) separator improves puncture resistance and durability.
- Improves electrolyte dispersion for enhanced performance and power.

4 FLAME ARRESTOR

- The integrated flame arrestor in the central venting system protects the battery from explosion due to external ignition sources.

5 MUD RACK

- Mud rack container design improves plate support, vibration resistance and isolates paste deposits to prevent short circuits.

6 POLYPROPYLENE CASE

- Reinforced design provides durability to withstand shock and vibration.

7 CARRY HANDLE

- Ergonomic design provides a thicker grooved carry handle to improve comfort.
- Utilises fully constrained safety design with pivot pin moulded directly into the case.

8 STATE OF CHARGE INDICATOR

- For on the spot diagnosis of battery condition.

9 CAST ON STRAP

- Thicker cast on strap ensures durability and lower electrical resistance to promote longer life.

10 LABYRINTH LID TECHNOLOGY

- Provides spill proof protection up to 90°.
- Reduced water loss.

Valvoline Premium Blue™ 8600 15W-40 Diesel Engine Oil

Valvoline™ Premium Blue™ 8600 15W-40 is endorsed and recommended by Cummins for its heavy duty diesel engines. Formulated with premium base oils and advanced additive technology, it delivers superior protection against wear, deposits, and oxidation, ensuring optimal engine performance. Designed and approved for Cummins CES 20086 and meets and exceeds API CK-4 requirements. It is compatible with modern emission systems, including EGR, DPF, and SCR, helping to maintain after treatment efficiency.

ISUZU GENUINE

Fuel Injector Kits

Isuzu Genuine Fuel Injector Kits simplify replacement for four- and six-cylinder engines by bundling essential components, including injector nozzle assemblies, gaskets, sleeves, and rocker cover gaskets. These kits ensure optimal engine efficiency, extended lifespan, and cost-effectiveness by removing the need for separate purchases. Designed for professional installations, they maintain Isuzu's unmatched quality standards. Additionally, Isuzu Dealers provide high-pressure fuel injector pipes (sold separately) compatible with varied engine models, ensuring seamless integration. Replacing critical components with genuine parts enhances engine performance and reliability, making Isuzu's comprehensive solutions indispensable for maintaining high-use and older diesel engines across Australia. All backed by a 12-month unlimited kilometre parts-only warranty, or 3-year unlimited kilometres parts & labour warranty when fitted by an authorised Isuzu Trucks dealer, because reliability is everything!

Isuzu Parts Infrastructure Grows to Support National Network

Isuzu Australia Limited (IAL) is demonstrating a strategic approach to parts management, leveraging its 36 consecutive years of Australian truck market leadership to enhance availability across the national network.

Isuzu's parts ecosystem is anchored by a 15,000m² National Parts Distribution Centre in Melbourne's western suburbs, which houses over 3.5 million individual parts.

Recent national network expansion, including new dealership sites in Pakenham (Victoria), Bundaberg, and Rockhampton (Queensland), has driven parts demand to new heights, a challenge anticipated by Isuzu Australia and National Parts Sales Manager Joel Gledhill.

"The planning and construction of the new sites provided plenty of notice to ensure stock levels are sufficient and are available when needed," Mr Gledhill explained.

Prioritising customers

Isuzu's parts offering encompasses three critical lines: Genuine Parts developed and manufactured by Isuzu Motors Limited in Japan to the highest factory standards, Best Value Parts (BVP) for older models, and Isuzu Approved Parts from leading Original Equipment Manufacturers including Allison Transmission, Meritor, Eaton, and Hendrickson.

The new sites joining the network are all large facilities, bolstering Isuzu's capability to cater to Australian transport requirements and adding to an impressive footprint of over 70 dealerships and Authorised Service and Parts Outlets (ASPOs) nationwide.

For Isuzu truck owners and fleet managers, this means replacement parts can be ordered and fitted to trucks in a highly efficient manner.

"Feeding the Isuzu network, our national parts distribution centre carries six months' worth of stock to ensure a steady supply of parts."

Next-door support

Isuzu's strategic network approach extends beyond inventory management; Isuzu owners will receive expert support from their local dealership and any dealership or ASPO across the country.

Fraser Coast Isuzu Dealership Opening Bundaberg

"Rather than letting the network grow randomly, Isuzu has a deliberate approach to where dealers and ASPOs are located, with the aim of allowing the customer to be within a few hours of a dealership along the journey of major highways," Mr Gledhill explained.

"For example, a part can be fitted in Melbourne, and if that truck travels to Adelaide, Sydney, or even Cairns, Isuzu has a network of dealerships that can assist if needed.

Adding to that peace of mind are Isuzu's generous warranties, covering its entire parts range and including a three-year warranty on genuine parts and labour when fitted at an authorised Isuzu dealership or ASPO.

Service agreements have further driven parts demand for Isuzu, with a 30 per cent uptick in scheduled cost packages and those pre-paid with initial truck purchases in 2024 over previous years.

Looking ahead to the 2025 new model line-up, Isuzu is meticulously preparing for increased parts demand.

"There has been a lot of planning around the introduction of parts for the new models that will be rolled out in the coming months," said Mr Gledhill.

"The new models are not just fresh on the outside; underneath, there is a raft of changes which we have taken into consideration.

"It's a game-changer but we're not leaving any stone unturned in our quest to keep Isuzu vehicles on the road and maximising customer uptime."

"Importantly, we have the capacity to warehouse the stock at our national parts distribution centre and are ensuring all Isuzu dealers and ASPOs are prepared at their own premises."

ISUZU TRUCKS

Dealer Network

Isuzu has the largest truck dealer network in the country, with all 76 locations providing the highest quality Genuine Parts, backed by industry-leading support and warranty. This all means reduced downtime for our customers, freeing them up to focus on the important stuff. And when the parts are fitted by an authorised Isuzu technician, you'll be helping extend the working life of your truck and getting peace-of-mind that money just can't buy. Because reliability is everything!
